

As a citizen of this country, I am outraged that Sinclair Broadcasting is making their stations air an anti-Kerry documentary days before the election. Sinclair uses the public airwaves free of charge, and is obligated BY LAW to serve the public interest. No matter who I support in this election, I must protest this flagrant abuse of media power as a matter of an important principle in our democracy.

If Sinclair proceeds with their plan, they should at least be forced to also show a pro-Kerry documentary of equal length at a consecutive or comparable time prior to November 2.

The FCC must protect the public in this matter. PLEASE, you must step in and address this injustice on our behalf. Thank you.
